Subject: Re: SWMU 9 - Navy's July 8 Responses to EPA Comment Letter Dated May 27, 2010
Attachments: Navy RTC to May 27 comments SWMU 9.pdf

Mark & Mark,,

I'm not sure why I missed responding on this. But I find the July 8, 2010 Response (file attached below) to EPA's two comments of May 27, 2010 to be acceptable. Please confirm that as proposed in your Responses, a groundwater sample will be collected from a new well to be installed at location 9TW/SB09, as indicated in your Response to EPA's comment #1.

Please check with PREQB to see if they are OK with your July 8, 2010 Responses to their Comments.

I will approve the schedule shown in Figure 1, with the provision that the commencement date for the additional Characterization Sampling be not later than January 7, 2011 (30 days from today), and all subsequent dates can be adjusted accordingly. Please submit an appropriately adjusted Schedule. Sorry for the delay.

Thanks,
Timothy R. Gordon

**Re: Draft Full RCRA Facility Investigation
SWMU 9 – Area B, Tank 214 Area
Response to PREQB Comments and
Additional Sampling Proposal
Naval Activity Puerto Rico (NAPR), Ceiba
EPA ID No. PR2170027203**

Dear Mr. Gordon:

The Federal Facility Coordinator (FFC) and the Hazardous Wastes Permits Division (HWPB) has finished the review of the above-mentioned document. The Environmental Quality Board received it dated July 8, 2010.

The Navy adequately responds to PREQB's comments. Hence, we hereby approved the report as a Final Version and concur with the proposed additional sampling. If you have any additional comments or questions please feel free to contact Gloria M. Toro Agrait at (767) 787-8181 extension 3586 or myself at extension 6141.

Cordially,

Wilmarie Rivera
Federal Facilities Coordinator
