Draft Additional Data Collection Work Plan in Support of the Ecological Risk Assessment

Dear Mr. Everett:

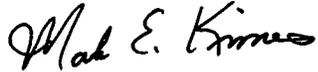

Michael Baker Jr., Inc. (Baker), on behalf of the Navy, is pleased to provide you with one hard copy and one electronic copy provided on CD of the Draft Additional Data Collection Work Plan in Support of the Ecological Risk Assessment at SWMU 14. This work plan was prepared in concurrence with comments provided from the USEPA in a May 29, 2007 letter on the Final RCRA Facility Investigation Report (RFI) for SWMU 14. The conclusions of the Final RCRA RFI recommended that soil samples be collected from the drainage ditch leading from the original fire training pit to a freshwater wetland to determine if a release has ever occurred from this area, address a data gap, and to revise the ecological risk assessment. This document is being submitted in accordance with the RCRA § 7003 Administrative Order on Consent Section 21.A. Additional distribution has been made as indicated below.

Mr. Adolph Everett, P.E.
U.S. Environmental Protection Agency, Region II
July 20, 2007
