IN REPLY REFER TO

5216

Ser 00B001/1589

16 DEC 1988

Mr. Billy Lee
Chairman, Santa Rosa County Commission
801 Caroline Street, S.E., Rm 107
Milton, FL 32570

Dear Commissioner Lee:

Naval Air Station Whiting Field is establishing a Technical Review Committee (TRC) to comply with the Environmental Protection Agency's (EPA) recommendations concerning installations which appear on the EPA's National Priority List. This committee will review and comment on proposed Navy response actions for clean-up of past waste disposal sites.

I would like to extend an invitation for you or an official representative of the county commission to serve as a committee member for the NAS Whiting Field TRC. Members will include representatives of the Navy, Environmental Protection Agency, Florida Department of Environmental Regulation, Santa Rosa County Commission and Santa Rosa County. I plan to have the committee membership solidified by January 15, 1989. We will have our first meeting in the early spring and expect to meet quarterly after that initial meeting.

Please advise Ensign Erica A. Smith, at 623-7651, of your intention. If you are unable to participate as a member of the committee, please recommend a representative who would be available to assist.

I would appreciate it if you would also nominate a public representative of Santa Rosa County. I ask that this person not hold an elected office; so he or she may truly speak as the public. It would be helpful; however, if the representative does have a background in geology or natural resources.

Sincerely,

P. E. PEDISICH
Captain, U. S. Navy
Commanding Officer
