LETTER REGARDING THE PROGRESS REGARDING IMPLEMENTATION OF THE
REMEDIAL INVESTIGATION FEASIBILITY STUDY WORK PLAN NAS WHITING FIELD FL
12/1/1990
NAS WHITING FIELD

Mr. Eric S. Nuzie
Florida Department of
Environmental Regulation
Twin Towers Office Building
2600 Blair Stone Road
Tallahassee, FL 32399-2400

Dear Mr. Nuzie,

I'd like to update you on our continuous progress in the ongoing environmental actions taking place at NAS Whiting Field, and to forward your copy of the final draft of our Community Relations Plan (CRP). Please review this document carefully and forward any input you may have to my project point of contact, Ensign Mary Lewellyn, (904) 623-7651.

As you know, phase one of the proposed two phase Remedial Investigation / Feasibility Study (RI / FS) was begun at Whiting Field in November. We hope to have phase one field investigations completed in April of 1991, at which time we will schedule our next Technical Review Committee (TRC) meeting.

As an active member of the TRC, your thoughts on the final draft of the CRP are important to us. This plan outlines the various ways in which the Santa Rosa community is involved in the ongoing investigations and remediations at Whiting Field. In order to ensure that the needs of the community were addressed by the CRP, interviews with local officials were conducted last year. The CRP identifies activities to keep the community informed of project activity and progress, and describes opportunities for community involvement in the decision making process.

Details of the CRP and other project information are available for public review at the Information Repository at the Public Affairs Office, Naval Air Station Whiting Field. Current plans call for the establishment of additional Information Repositories at local libraries.

Thank's for your continuing interest and support.
We will strive to keep you informed of our progress and
milestones achieved through the course of this project. Should
you require further information, or if we may otherwise assist
you, please call or write my project point of contact:

Ensign Mary Lewellyn
Public Affairs Office
NAS Whiting Field
Milton, FL 32570-5000
