We have determined that we must have a data certification from the Navy before we can propose NAS Whiting Field for listing on the NPL. The statement need only certify the Navy's (1) knowledge that the data are being used to list the site on the NPL and (2) belief that the data are appropriate for this purpose.

If you have any questions or need additional information, please have your staff contact Barbara Vandermer on 703-603-9018).
