Ms. Jane Fugler and I have reviewed the above response to comments dated February 8, 1996 (received February 12, 1996). The responses are acceptable. When the Navy decides on a potentially acceptable contaminated soil volatilization model as described on page 8 of 16, please submit it for review by the Department.

Thank you for the opportunity to review this document. If you have questions or require further clarification, please contact me at (904) 921-9994.

Sincerely,
