RE: Health & Safety Plan for RI/FS Field Investigation, NAS Whiting Field

Dear Ms. Martin:

I have reviewed the subject document dated January 1998 (received February 6, 1998). The document is well written and I have no substantial comments except to note the following:

1. Section 9.0 Spill Containment: the contractor should be aware (and, I think they are) that NASWF has an IDW Plan which may also be utilized to assist for spill containment guidance.

I appreciate the opportunity to review this document. If you have questions, please contact me at (904) 921-4230.

Sincerely,

James H. Cason, P.G.  
Remedial Project Manager
