RE: Revisions to Chapters 5, 6 and 7: Draft Feasibility Study for Surface and Subsurface Soil
for Sites 3, 4, 6, 30, 32 and 33, NAS Whiting Field

Dear Ms. Martin:

I have reviewed the above documents submitted with your letter of June 22, 2000 (received June 27, 1999). The revisions for the three chapters reflect modifications to the previously approved Feasibility Study. The proposed revisions include the UST removal option and the associated information for Sites 30, 32 and 33. This is necessary because although it was anticipated during the formulation of the original Feasibility Study that the USTs would be removed prior to preparation of the Proposed Plans for those sites, removal did not occur. I concur with the proposed revisions. Please submit a new final Feasibility, which incorporates the revisions.

Thank you for the opportunity to review this document. If you have any questions, please feel free to contact me at (850) 921-4230.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
