RE: Draft Proposed Plan, Site 13, Sanitary Landfill, Naval Air Station Whiting Field, Milton, Florida

Dear Ms. Martin:

I have reviewed the above document dated July 2000 (received July 31, 2000). The Navy should address the following comment before the document can be considered final:

1. Please delete the definition for polychlorinated biphenyl from the Glossary of Terms since this is not a contaminant of concern at Site 13 and may be confusing to a non-technical reader.

Other than the above minor comment, the document appears to be well prepared. Thank you for the opportunity to review this document. If you have any questions or need further clarification, please contact me at (904) 921-4230.

Sincerely,

James H. Cason, P.G.  
Remedial Project Manager
