TO: Eric Nuzie
THROUGH: John Gentry *JG*
FROM: J.J. Crane *JJC*
DATE: February 24, 1986
SUBJECT: NAS Whiting Field, Navy Assessment and NACIP Program
Verification Study Plan of Action

I've reviewed the subject document and the letter to John Ruddell by Mr. Spell. Since the time I reviewed the IAS and submitted my concerns about sampling design and the sampling parameters, the Navy and their contractor, Geraghty & Miller met with us. They submitted to us a document which showed the FDER/EPA Review Recommendations which were to be included as amendments to the November, 1985 Plan of Action. The original Plan of Action (November, 1985) included the same portions of the IAS which I had concerns about, however, the inclusion of the FDER/EPA recommendations addressed the concerns I had.

In the letter from Mr. Spell to Mr. Ruddell, Table 1 showed additional work to be performed in the verification study. If these tasks are to be performed in addition to the other tasks already stated in the Plan of Action, I concur with the modified Plan.
