17 MAY 1984

State of California
Department of Health Services
2111 Berkeley Way
Berkeley, CA 94704

Gentlemen:

This letter is to confirm timetables agreed upon at the on-site visit held on May 10, 1984, of the sites that are being included in the Naval Air Station, Alameda, Confirmation Study. Julie Anderson of your staff, Ronald Clawson of the California Regional Water Quality Control Board (CRWQCB), Joseph Shandling of the station, and Helen Ling of this Command, were in attendance.

As agreed upon between Julie Anderson and Helen Ling, your office will be sending us written comments on the previous confirmation study of the West Beach Landfill site before May 25, 1984. Your office, and the CRWQCB, will receive copies of our Architect-Engineer's sampling plan as soon as it is submitted to us. As was discussed on May 10, 1984, a two week period has been scheduled for review of the plan. If written comments are not received by us before the end of the week following the review period, we will assume the plan is agreeable to all parties.

As was emphasized at the on-site visit, the Confirmation Study is being conducted by an Architect-Engineering firm under contract with the Navy. Therefore, it is important that we keep on a time schedule. We look forward to the State's cooperation during this study.

Please address any questions or comments you may have to Ms. Helen Ling, Environmental Engineer of this Command, at (415) 877-7493.

Sincerely,

VICTOR I. CRAWFORD, P.E.
Head, Environmental Management Section
