Ser 52/X291
1 March 1990

Chris Parry
Bay Conservation and Development Commission
30 Van Ness Avenue, Room 2011
San Francisco, California 94102

Dear Ms. Parry:

Pursuant to the Defense Environmental Restoration Program as established by Section 211 of the Superfund Amendments and Reauthorization Act (SARA) of 1986, 10 U.S.C. Sections 2701 to 2707, we are establishing a Technical Review Committee (TRC) to provide comments on our proposed actions regarding site remediation conducted at Naval Air Station (NAS) Alameda under the Navy's Installation Restoration (IR) Program. The purpose of the IR Program at NAS Alameda is to characterize and remediate hazardous waste contamination sites. NAS Alameda plans to begin the Remedial Investigation in late March 1990.

At a minimum, the TRC should include one representative from the Navy, the Environmental Protection Agency, appropriate state and local authorities, and a public representative of the local community.

We request you designate a member to represent your agency on our TRC. Please provide the name, title, and telephone number of your representative by 16 March 1990.

The NAS Alameda point of contact is R. Cate, Code 52, at (415) 263-3716. Your assistance is greatly appreciated.

Sincerely,

R. P. BOENNIGHAUSEN
CAPTAIN, USN
Commanding Officer
