Dear BCT Members:

Subj: REQUEST FOR EXTENSION, SITE 32, REMEDIAL INVESTIGATION REPORT,  
ALAMEDA POINT, ALAMEDA, CALIFORNIA

Based on the Site Management Plan (SMP), of October 5, 2005, the Site 32 Draft Remedial Investigation (RI) Report was scheduled for submittal on January 30, 2006. The Navy is requesting an 8-month extension to complete the document. This extension request is driven largely by the unexpected encounter with low levels of surface radiation during the beginning of remedial investigation field activities, resulting in a stoppage of work in order to regroup and revise the field activities and obtain funding. In accordance with the Alameda Naval Air Station Federal Facility Agreement (FFA), Section 14, the Navy is requesting an extension on the submittal date for the Installation Restoration Site 32 Draft Remedial Investigation (RI) Report. The resulting due date for the Site 32 Draft Remedial Investigation Report will be September 26, 2006. The extended due date will allow the Navy to thoroughly complete the Remedial Investigation Field Work along with the RI Report, itself. All due dates of future IR Site 32 documents will also be delayed by 8-Months.

If you have any questions or comments, please call Mr. Andrew Baughman at (619) 532-0902 or me at (619) 532-0907.

Sincerely,

THOMAS L. MACCHIARELLA  
BRAC Environmental Coordinator  
By direction of the Director
