SUBJECT: VALIDATED ANALYTICAL RESULTS FOR 2005 OFFSHORE SEDIMENT
SAMPLING, ALAMEDA, CALIFORNIA

Dear Ms. Cook, Ms. Liao, and Ms. Huang:

In accordance with my previous discussion with Ms. Cook, a CD entitled *Validated Analytical Results for June 2005 Alameda Offshore Sediment Sampling* is enclosed. These data were collected and analyzed in accordance with the approved work plan *Offshore Sediment Study Work Plan at Oakland Inner Harbor, Pier Area, Todd Shipyard, and Western Bayside Alameda Point, California* dated May 27, 2005. Each CD contains the following:

- A Microsoft Excel file with the following worksheets
 - Notes: Summary stating the contents, sources of data, definitions of headers
 - EOIH: Data for Oakland Inner Harbor (IR Site 20 and offshore portions of IR Site 28). Sampling locations for this area include the prefix "OIH C"
 - PA: Data for the Pier Area (IR Site 24). Sampling locations for this area include the prefix "PA C". It should be noted that this worksheet includes a sampling location identified as "reference". This location was included as a reference station for the forensic evaluation conducted for the Pier Area rather than an ambient reference station.
 - WB: Data for Western Bayside. Sampling locations for this area include the prefix "WB C".
- Figures showing the location of each of the sampling stations for these areas.
