Attention: Kathy Nakazawa (1811KN)

Dear Ms. Nakazawa:

Thank you for submitting the November 17, 1988 site investigation report for the fire fighting school at Crows Landing. I regret that EPA is unable to review this document in detail or provide comments on final cleanup levels to be achieved. As you may know, EPA Region 9 has very limited resources to address myriad Federal facilities within our jurisdiction, and we are therefore limiting our review to those sites likely to be included on the National Priorities List.

I am, however, very interested in the demonstration project planned for Crows Landing. I would appreciate receiving a copy of any status report prepared at the conclusion of this study.

I appreciate your continuing efforts to keep us informed of the CERCLA cleanup activities occurring under your oversight.

Sincerely,

A handwritten signature in cursive script that reads "Julie Anderson".
