Reply to Attn of:

Mr. Hubert Chan
Naval Engineering Field Activity West
900 Commodore Drive
San Bruno, CA 94066-2302

Dear Mr. Chan:

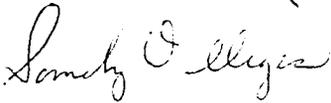

The purpose of this letter is to offer comments on the Navy's Installation Restoration Program Community Relations Plan for Crows Landing. Overall it provides useful information. However, the document is inconsistent regarding the ownership of Crows Landing in a few places. NASA would like to request that the following information be corrected:

1. Page 2, Third indentation at the bottom of the page relating to the contact address: Please change "Naval Air Weapons Station" to *Moffett Federal Airfield*.
2. Page 7, Second paragraph: "Currently, the only significant tenant usage is by NASA,...".
3. Page 7, Third paragraph: "~~NASA maintains a tenant agreement with NAS Moffett Field and EFA West. The agreement establishes NASA's responsibilities, including research operations and the requirement for reimbursement to the Navy for the cost of utilities and services. The term of the agreement is 4 years (NASA 1993)~~"
4. Page 8, Fourth paragraph: Recent surveys conducted by Kathleen Kovar in the Fall of 1994 could not locate any burrowing owls. Please provide verification that the burrowing owl is on-site or delete this paragraph.

5. Page 10, Second sentence "There are no aircraft currently based at NALF Crows Landing, which is now used ~~only~~ *primarily* by NASA and other authorized Federal users."
6. Page 10, Third paragraph: Please delete ~~-"As noted previously, NASA will assume responsibility for the NALF Crows Landing in October 1994."~~

Thank you for the opportunity to comment. Should you have any questions please contact me at (415) 604-3355 or Kathleen Kovar at (415) 604-0824.

Sincerely,

Sandy Olliges
Assistant Chief,
Safety, Health and Environmental Services Office
