Subj: EXTENSION OF EXISTING SOIL VAPOR EXTRACTION (SVE) PERMIT
AT NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA)
CROWS LANDING FLIGHT FACILITY

Dear Mr. Mendes:

The U.S. Navy requests a 2-year extension of its existing SVE air discharge permit to operate (#N-3871-1-1) for underground storage tank 117 at NASA Crows Landing Flight Facility (formerly Naval Auxiliary Landing Field Crows Landing). The existing SVE system was shut down in April 1998 after approximately 6 months of operation, however an additional 2 to 3 months of SVE operation is anticipated during 1999 or 2000.

Please call me at (650) 244-2562 or Steve Annecone of Tetra Tech EM Inc. (TtEMI) at (303) 312-8886 if you have any questions.

Sincerely,
