U.S. Navy Releases Action Memorandum for Groundwater Response Actions at NASA Crows Landing Flight Facility

The Navy has released an Action Memorandum announcing time-critical removal actions to address groundwater contaminated with 1,2-dichloroethane, carbon tetrachloride, and other solvents at the Administration Area Plume at NASA Crows Landing Flight Facility. Response actions are planned near former Underground Storage Tank Site 117 and the Demolished Hangar Area. The Navy invites the public to review and comment on the planned activities described in the Action Memorandum that has been prepared in accordance with the requirements of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The Action Memorandum is available at the Stanislaus County Library, Patterson Branch at 46 North Salado, Patterson, California. The administrative record for these removal actions is available for review through 30 September 2001.
