Dear Mr. Granero:

This is in regard to your January 28, 1986 telephone conversation with Brian Shinmoto of this office concerning the cleaning operations of Little Salado Creek. Earlier, maintenance crews had brought a 40-ton crane to the site; however, rains caused the grounds to soften, thereby making it impossible to support the crane.

This letter is to inform you that the cleanup will take place after the rain season ends when the ground can support the crane. If there are any questions, please contact Brian Shinmoto at 209 836-6261.

Sincerely,

A. W. Farrar
Project Superintendent
