Subj: CURRENT OPERATIONS ON REMEDIAL INVESTIGATION SITES AT MARINE CORPS AIR STATION EL TORO.

1. At the present time two of twenty-two sites included within the RI/FS program at MCAS El Toro are continuing to release hazardous materials into the environment. The two sites are listed below along with basic information about each.

Site 1 Explosive Ordnance Disposal Range - , This site is used for the detonation and disposal of small munitions (flares, small ordinance, ect.) Currently this site is being used by MCAS El Toro, other military facilities and state and local law enforcement departments to dispose of munitions and other explosives under twenty pounds. MCAS El Toro states that they have a interim status permit to operate this facility until 1992.

Site 20 Hobby Shop - Since 1967, military personnel have used the facilities at this site to service their privately-owned vehicles. Spills are a frequent occurrence at this site.

These sites are currently included in the RI/FS program at MCAS El Toro and subject to a signed Federal Facility Agreement.
