ATTN: Mr. Glenn Kistner  
75 Hawthorne Street  
San Francisco, CA 94105-3901

Dear Mr. Kistner:

We continue to proceed with our evaluation of historical aerial photograph anomaly (APHO) sites at the Marine Corps Air Station, El Toro. We have received written concurrence from the State of California, Environmental Protection Agency, Department of Toxic Substances Control on our No Further Action (NFA) recommendations for the seven (7) APHO sites listed on the attached Table.

Should your agency elect to not provide comments within 45 days of receipt of this letter, we will assume that you concur with our recommendations for the seven sites identified on the attachment. Further, we will identify NFA status for these APHO sites in the next Base Realignment and Closure Business Plan update.

Please do not hesitate to call Ms. Lynn Hornecker at (619) 532-4162 if you have questions pertaining to the APHO sites in question.

Sincerely,

A handwritten signature in black ink, appearing to read "Dean Gould", written over a white background.

DEAN GOULD  
Base Realignment and Closure  
Environmental Coordinator  
By direction of the Commander

Attachment: 1. Table. Aerial Photograph Anomaly Sites Recommended for No Further Action Status During September and October 1999
