re: RAB Report

Agenda Issues since 1 December 1999:

Minutes

Unit A.

"Working Draft" Final ROD, Sites 2&17

Discussed details of the ROD changes, as compared to presentations, and reviewed basic information regarding the gross alpha and beta results from earlier documents.

Unit B.

* BCP/2000 Review -

Letter for RAB submitted to G. Hurley, D. Gould. Successful additions made of recommendations for the BCP/2000: 1) Radionuclides (Ra 226, Rn 222, Sr 90, U 238); 2) MtBE; 3) Perchlorate. Copies of the new Business Plan were distributed and discussed.

Unit D.

* UST Closure Status -

No further information was obtained regarding UST closures.

Unit E.

* Perchlorate / Fertilizer Rebuttal -

Distributed copies of the "Addition and Corrections" that the fertilizer industry had announced would be printed for the invalid data previously published by USEPA/ Athens.
