RE: MCAS EL TORO GROUNDWATER MEETING - 22 March 1995

This is to notify you and your organization that there will be a meeting among Orange County Water District (OCWD), Irvine Ranch Water District (IRWD), Santa Ana Regional Water Quality Control Board (RWQCB), and Department of Navy (DON) & Marine Corps Air Station (MCAS) El Toro starting at 10:00am at El Toro on 3/22/95. An agenda is included in this fax.

For Steve Conklin, please provide me with the IRWD and RWQCB personnel you have requested to attend this meeting.

All non-DON/Marine personnel attending the meeting must provide information to Vish Parpiani, El Toro's Installation Restoration Program Manager, in order to be allowed on the military installation. Vish may be reached at 714/726-4432.

The meeting will focus on a technical overview of possible VOC remediation alternatives and a presentation by OCWD on past costs associated with interim TCE plume control implemented by OCWD. The afternoon cost presentation will only involve OCWD and DON persons, not IRWD or RWQCB.

EL TORO GROUNDWATER CLEANUP ALTERNATIVES

22 MARCH 1995

MCAS EL TORO

- 1000 - 1200: New Feasibility Study Alternatives
- groundwater modeling progress
 - extraction/injection well locations
