FAX MEMORANDUM

June 04, 1993

(415/744-1916)

Mr. John Hamill
Project Manager
U.S. Environmental Protection Agency
Region IX
Hazardous Waste Management Division, H-9-2

Re: MCAS EL TORO FOCUSED APPROACH TO OU-1 FEASIBILITY STUDY

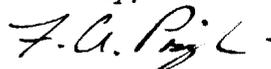

John:

Please ask EPA Region IX Office of Counsel to approve the El Toro Team's focused approach to Operable Unit 1 (OU-1) feasibility study as it is presented in the Jacobs Engineering Group Inc. memorandum dated 04 May 93. I ask that a response be provided on or before 18 June 93.

This team task was my action. The initial course was for the Navy to send an official Navy legal correspondence directly to EPA counsel asking for approval of the focused approach that was discussed in the 24/25 March 93 managers meeting in San Francisco. For expediency and improved internal team building, I am asking you to communicate our team position to Karen Goldberg. I ask that this request be concluded by 18 June; Mr. Mills of OCWD will be attending meetings in Washington D.C. the following week. I feel a mutually accepted OU-1 approach and our bias toward action can only be looked upon as favorably.

Please direct any questions that you may have concerning this request to me at 619/532-2532.

Sincerely,

F. ANDREW PISZKIN
Remedial Project Manager
