Dear Ms. Anderson:

The attached signature page has been signed indicating our support for the Federal Facilities Agreement (FFA) extension schedule that was developed. We have been very pleased with the development of this revised schedule and how effectively our organizations worked together to reach mutual goals. The teambuilding sessions have significantly benefited the Marine Corps Air Station (MCAS), El Toro team.

The new schedule is very aggressive working towards cleaning up MCAS El Toro. The Navy is committed to supporting this schedule in every way possible. We hope to continue teambuilding so that our organizations can work even more effectively in the future.

Sincerely,

A handwritten signature in black ink that reads "James R. Pawlisch".
