Dear Sir:

According to direction provided by our headquarters in Washington, DC, we are to request you perform health assessments for any activities that are proposed for the NPL. Our information indicates that the Marine Corps Air Station in El Toro, California and Yuma, Arizona are being considered for listing on the NPL by EPA. Request you prepare the health assessment required by the recent amendments of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980.

If you have any questions, please contact Mr. Ernest Cerini at (619) 696-5461.

Respectfully,

Stuart S. Sunderland

STUART S. SUNDERLAND
Head, Southwest Environmental Section
