Protection

**DRAFT REPORT APPROVAL: FEASIBILITY STUDY (FS) FOR SITE 24,
OPERABLE UNIT (OU-2A) - SOIL, MARINE CORPS AIR STATION
(MCAS) EL TORO**

Dear Mr. Joyce:

The California Environmental Protection Agency (Cal/EPA) has completed the review of the above subject document dated August 9, 1996, prepared by Bechtel National, Inc. The reports present the results of a feasibility study conducted to identify and evaluate potential remedial action alternatives for volatile organic compounds (VOC) - contaminated soil at Site 24.

Cal/EPA is satisfied that comments emanating from our October 11, 1996 letter on the draft report has been adequately addressed in your latest submittal of January 17, 1997. As such, we hereby approve the soil portion of the FS. We believe the FS contains sufficient information concerning soil remediation to begin preparation of a Proposed Plan as the next step in the selection of an interim remedy. If you have any questions, please call Mr. Tayseer Mahmoud at (310) 590-4891.

Sincerely,

John E. Scandura, Chief
Office of Military Facilities
Southern California Operations
