COMMENTS ON TECHNICAL MEMORANDUM, INSTALLATION OF MULTI-LEVEL MONITORING WELL 24MW08, FORMER MARINE CORPS AIR STATION, EL TORO, GEOTRACKER No. STL8R2654056

Dear Mr. Newton:

We have reviewed the above referenced document, dated November 2006, which we received on November 13, 2006.

The State Water Resources Control Board (SWRCB) has adopted regulations requiring the electronic submittal of information (ESI) over the internet, for cleanup programs. Since January 1, 2005, parties responsible for cleanup at sites overseen by the Regional Board have been required to submit the following information electronically:

- groundwater analytical data;
- surveyed locations of monitoring wells;
- boring logs describing monitoring well construction, and;
- portable data format (PDF) copies of all reports.

Please submit an electronic copy of this technical memorandum, groundwater analytical data, surveyed well locations, and boring logs to the SWRCB's Geotracker website.

Go to <http://geotracker.waterboards.ca.gov/> for information on obtaining a password, data format, and instructions for electronic submittal of information. For any questions, please call me at (951) 782-4494, or send email to jbroderick@waterboards.ca.gov.

Sincerely,

John Broderick
