SUBJECT: DRAFT PARCELS D-1 AND G GROUNDWATER TREATABILITY STUDY  
TECHNICAL REPORT, IR-09, IR-33 AND IR-71, HUNTERS POINT  
SHIPYARD, SAN FRANCISCO, CALIFORNIA

Dear BCT Members:

Enclosure (1) is the *Draft Parcels D-1 and G Groundwater Treatability Study Technical Report, IR-09, IR-33, and IR-71, Hunters Point Shipyard, San Francisco, California*, dated 7 July 2009. The report concludes that no further injections at IR-09 and IR-71 are needed; this supports the previous conclusions reached by the BCT. We will continue to monitor the effectiveness of the ZVI injections by transitioning the applicable monitoring wells to the basewide groundwater monitoring program. The upcoming groundwater technical meeting on July 23 will focus on transitioning these wells.

Please review this document and provide comments to me **no later than Monday, August 10, 2009**. If you have any questions, please call Ms. Melanie Kito (619) 532-0787 or me at (619) 532-0913.

Sincerely,

KEITH FORMAN  
BRAC Environmental Coordinator  
By direction of the Director
