San Bruno, CA 94066-0720

Subject: Naval Station Treasure Island, Hunters Point Annex, San
Francisco, CA - Group II Sites Sampling Plan

Dear Mr. Dong:

Regional Water Quality Control Board (RWQCB) staff have reviewed the January 25, 1988 Sampling Plan for the Group II Sites at Hunters Point Annex. RWQCB staff have no objection to your proceeding with the soil and ground water investigations as specified in the subject sampling plan, if the sampling plan is modified to satisfactorily address the California Department of Health Services comments. We will review the results of these studies and recommend additional pollution investigations where appropriate, for adequate definition of the extent of soil and ground water pollution to background levels. If you have any questions, please contact William Hurley at (415) 464-0841.

Sincerely,

Lester Feldman
