Mr. Tom Brannon

939 Ellis Street
San Francisco, CA 94105

Dear Mr. Brannon:

Enclosure (1) provides raw data from the air sampling that has been performed at Naval Station, Treasure Island, Hunters Point Annex as part of the Solid Waste Air Quality Assessment Test (SWAQAT) program.

Enclosure (1) is the raw data currently available. As previously indicated in our December 5, 1988 letter, we have not been able to collect a number of the non-consecutive 24-hour period Ambient Air (AA) Samples. As of this date, two days of AA Sampling have not been collected as a result of precipitation or high winds during December 1988.

With weather permitting, we anticipate submission of the draft SWAQAT report for your review and comment in January 1989.

Should you have any questions regarding this matter, the point of contact is Commander, Western Division, Naval Facilities Engineering Command (Attn: Ms. Louise T. Lew, Code 1811, (415) 877-7505).

Sincerely,

L. M. SMITH
