

April 9, 1990

Richard Powell (Code 1811RP)  
Naval Facilities Engineering Command  
Western Division  
PO Box 727  
San Bruno, CA 94066

Dear Mr. Powell:

In our meeting on March 28 concerning Hunters Point Annex, there was a brief discussion of whether there remained any RCRA-regulated generators among the tenants at HPA. I noted that I had found several listed in the EPA database of persons who notified us that they are hazardous waste handlers under RCRA.

I have enclosed a typed list of the handlers I found in the database, showing their name (and location within HPA, if specified in the database), RCRA Identification Number, and RCRA status (i.e., whether they filed as a generator, transporter, and/or treatment/storage/disposal facility). Because EPA does not always obtain accurate, up-to-date information from the facilities, this list may well be out-of-date.

As you will recall, in our March 28 meeting, there was a question concerning Section 4.1(t) of the Proposed Federal Facility Agreement (page 6) as to whether the Navy's Remedial Investigation is being conducted "pursuant to ... the substantive provisions of the RCRA Facility Assessment Guidance." In reviewing the extent of the Navy's previous efforts to identify potential releases of hazardous constituents at HPA in accordance with this guidance, I will want to know whether these specific firms were inspected. I would like to be advised of any information the Navy has concerning the waste handling practices at these firms (other than information contained in the administrative record documents listed on the printout you provided me after our meeting on April 4).

If you have any questions, please call me at (415) 865-7630.

Sincerely,

A handwritten signature in cursive script that reads "Chuck Flippo".

Chuck Flippo  
Federal Enforcement Section

Encl.
