Dear Regulatory Team Members:

Enclosed please find the *Final Task-Specific Plan for the IR-18 Scoping Survey*. This Task Specific Plan (TSP) provides responses to comments from regulatory team members and has been updated accordingly. The survey will follow procedures outlined in the *Base-Wide Radiological Work Plan, Revision 1, Hunters Point Shipyard, San Francisco, California, October 2007*. The intent of this survey is to identify and remove radiological anomalies in the top 12 inches of soil. A very similar Task Specific Plan will be developed for the adjacent IR 7. Surveys for IR 7 will be conducted after implementation of the shoreline remedial action grading operations are complete.

The Navy considers the document final and will begin surveys and anomaly removal as per the Task-Specific Plan during the summer of 2009. Following completion of the surface survey and anomaly removal a Survey Report will be issued. If you have questions regarding this request and the enclosed documents, please contact Mr. Dane Jensen at (619) 532-0789, or Mr. Keith Forman at (619) 532-0913.

Sincerely,

KEITH FORMAN
BRAC Environmental Coordinator
By direction of the Director
