MEMORANDUM

FROM: Roberta Blank, RPM

A handwritten signature in cursive script, appearing to read "Roberta Blank".

TO: Dave Song, RPM, WestDiv

I have reviewed the Navy's memorandum of 6/10/93 regarding the Parcel E Containment Feasibility Studies. I am not clear from this memorandum what the Navy is proposing. The memorandum indicates in item #3, that the agencies will not receive a deliverable regarding the containment studies until the June 30, 1994 "Preliminary Feasibility Study Recommendations" are submitted. What is covered in this June 30 deliverable? Item #4 describes a work plan that will be prepared for the study; it is unclear whether this work plan is the June 30 submittal or something preceding it.

We need further information from you regarding the proposed schedule and the scope and objectives of the study. It is not clear what the Navy is authorizing its consultants to proceed with on September 30, 1993. Also, we should look at how this study schedule will dovetail with or effect the overall schedule for Parcel E. I attempted to contact you to discuss this and left a message on your voice mail. Please call me at (415) 744-2385 at your earliest convenience. I suggest we have a conference call between the Navy and the agencies. Thank you.
