RE: Parcel D Feasibility Study Draft Final Report, Hunters Point Shipyard, San Francisco

Dear Mr. Powell:

This letter will serve to notify you that as a result of the February 13, 1997 meeting among the Hunters Point Shipyard BCT and Navy RPMs, the EPA is deferring approval of the Parcel D Draft Final FS until issues regarding facility-wide groundwater are resolved. I estimate this will occur on or about April 3, 1997 when we are scheduled to meet again to discuss the groundwater technical memorandum currently under preparation by the Navy's contractor, PRC. If EPA should have any comments on the Parcel D Draft Final FS, we will submit them no later than April 8, 1997.

Should you have any questions or any concerns about the schedule changes that I have proposed above, please contact me immediately at (415) 744-2409. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Claire".

Claire Trombadore
Remedial Project Manager
