RE: Extension of Review and Comment for Risk Management Technical Memorandum, Parcel D, Hunters Point Shipyard

Dear Messrs. McClelland and Kao:

As I informed you in an email dated August 13, 1999, EPA needs additional time to complete its review of the Parcel D Risk Management Technical Memorandum. Currently, EPA comments are due September 7, 1999. However, EPA requests an extension until October 5, 1999 to submit our comments. Based upon this letter and my request for additional review time, the Navy should propose revisions to the Parcel D FFA schedule as appropriate. In addition, please note that the Southeast Alliance for Environmental Justice (SAEJ), the manager of the Hunters Point Shipyard Technical Assistance Grant (TAG), telephoned me today and also requested additional time for review. Concurrence by the Navy and DTSC on EPA's extension request will also allow the TAG technical advisor more time to review the document. Thank you for your understanding and cooperation.

Should you have any questions, please contact me at 415-744-2409.

Sincerely,

A handwritten signature in cursive script, appearing to read "Claire", followed by a long horizontal flourish.

Claire Trombadore
