Attention: Mr. Richard Mach

**Subject: Response to Draft Final Protective Soil Concentrations Technical Memorandum and Ecological Risk Assessment Validation Study Report, Parcel E, Hunters Point Shipyard, San Francisco, California**

On March 15, 2000 Regional Board staff (Board staff) received the two above-referenced technical reports. Both reports address the risk posed to terrestrial receptors from contaminants in soil at Parcel E, Hunters Point Shipyard, San Francisco. Because neither of the reports specifically addresses water quality issues such as the ecological risks posed by ground water and/or surface water pathways, Board staff does not have any comments at this time. We understand that the pertinent water quality issues will be addressed in separate documents.

If you have any questions regarding this matter, please feel free to contact me at (510) 622-2377 or by electronic mail at [cm@rb2.swrcb.ca.gov](mailto:cm@rb2.swrcb.ca.gov).

Sincerely,

Chris Maxwell  
Associate Engineering Geologist  
Ground Water Protection and Waste  
Containment Division
