Community Involvement Plan Update

Starting in the fall of 2012 and into the spring of 2013, the Navy will be evaluating and updating the Community Involvement Plan (CIP) that was issued in May 2011. The 2011 CIP has provided valuable guidance and resources to the Navy to develop two-way communications with the public, focusing on enhanced outreach to neighbors of the former Shipyard.

The 2013 CIP Update focuses on evaluating the success of outreach efforts by the Navy presented in the 2011 CIP. In addition, feedback from community members is a critical component in making sure that the Navy's efforts are working and in planning future events. Look for a community survey later this year to provide input to the Navy. In addition, the Draft CIP Update will be available for public review in 2013.

To read the 2011 CIP, visit the Navy website at www.bracpmo.navy.mil or one of the local information repositories, listed below.

In 1988, the Department of Defense created the Base Realignment and Closure (BRAC) Program to oversee the cleanup and transfer of military bases to public or private groups for redevelopment.

HPNS was added to the BRAC Program in 1988, and the Navy has been working since that time to clean up hazardous waste created by former shipyard use.
