Mr. Alvaro Gutierrez
California Department of Toxic
Substances Control, Region 4
245 West Broadway, Suite 425
Long Beach, CA 92802-4444

Dear Mr. Gutierrez:

We are very pleased to receive your letter of May 20, 1994, approving the final Remedial Site Evaluation (RSE) report for Site 6A for the Naval Station Long Beach. We would like to take this opportunity to thank you for all your time and effort spent on this project. Despite the many challenges and the expedited schedule, we believe our hard work paid off.

As you are aware, the Port of Los Angeles (POLA) is planning to lease this site from the Navy for their Seaside Avenue Grade Separation Project which involves the construction of a temporary detour roadway and permanent rail tracks across Site 6A. In order to support the POLA proposed construction project, we would like to request that the Department provide assistance in determining the requirements, if any, for this kind of construction-related project on the site.

If you have any questions regarding this request, or require further information regarding the extent of construction, please feel free to contact me at (619) 532-1250.

Sincerely,

A handwritten signature in cursive script that reads "Alan K. Lee".

ALAN K. LEE
