FINAL SITE MANAGEMENT PLAN, LONG BEACH NAVAL COMPLEX, LONG BEACH, CALIFORNIA (File No. 90-75)

Dear Ms. Valenzia:

We have received and reviewed the Navy's letter dated June 14, 2001, transmitting the *Final Site Management Plan, Long Beach Naval Complex, Long Beach, California* dated June 15, 2001. This Site Management Plan (SMP) outlines activities, and establishes schedules and deadlines for all environmental response actions that will be undertaken at a number of Installation Restoration (IR) sites and area of concern (AOC) sites at the Long Beach Naval Complex. Our comments on the draft document have been adequately addressed and appropriately incorporated into the final document. The Navy is authorized to implement this document as proposed.

If you have any questions regarding the above, please call me at (213) 576-6738.

Sincerely,

Ana M. Townsend
Sanitary Engineer Associate
Site Cleanup Unit

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption
For a list of simple ways to reduce demand and cut your energy costs, see the tips at: <http://www.swrcb.ca.gov/news/echallenge.html>

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
