Subj: DRAFT REMOVAL SITE EVALUATION PLAN

1. The following information is a result reviewing the "Draft" REMOVAL SITE EVALUATION PLAN for site 6A, Naval Station Long Beach:

PART I, WORKPLAN

- 1) On page i, title block: Change "LONG BEACH NAVAL STATION" to "NAVAL STATION LONG BEACH".
- 2) Paragraph 1.2.1 "Site Description", on page 1, third sentence from end of paragraph: States site is fenced in some areas with access to general public from Ocean Boulevard. Not True, most of the site is fenced, and the access areas from Ocean Boulevard have gates. Public access is monitored by either DPDO at scrapyard, or the Construction Battalion Unit (CBU) west of building 95. In addition, the statement as exists contradicts statement on page 15, second paragraph from top of page that states "the access to the site is controlled by a fence".
- 3) 1st sentence at top of page 4: Change the word "commissary" to "building 95". The commissary has not existed in this area for many years. All other references in work plan refer to building 95.
- 4) Page 11, last sentence of 2nd paragraph from top of page: Statement says "Please see FIGURE THREE: LOCATIONS OF SITE 6A RSE SAMPLE POINTS". The only "figure 3" I could find in the work plan was the "Schedule Summary" on page 22. Previous statement referred to QAPP/SAP, but no figure 3 exists there either. There is a figure, with no number, in PART II, FIELD SAMPLING PLAN, page 4, but it is titled "SITE 6A - BORING SITES NAVAL STATION LONG BEACH". Is this the figure 3 you referenced? If so, statement needs clarification as to location and correct title. The drawing will also need the figure "number" inserted in the title block.
- 5) Page 11, last sentence of 1st paragraph under 5.1.4: Delete "POLA and". The Navy will designate the safe storage location for containers.

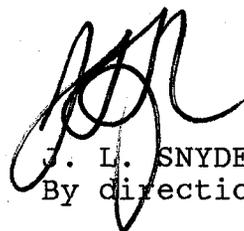

- 6) Page 12, paragraph 5.1.5, 1st sentence: Remove "and POLA" from sentence. Samples are taken for the Navy, not Navy and POLA.
- 7) Page 12, paragraph 5.2, last sentence of 2nd paragraph: References "Appendix A3 of this RSE Workplan". I could not find anything called Appendix A3. Should this read "PART V of this RSE Workplan"?
- 8) Page 15, last sentence in 2nd paragraph from bottom of page: Capitalize the word "control" in the title of Department of Toxic Substances Control.

PART II, FIELD SAMPLING PLAN

- 1) Page ii, under List of Figures: Title of Figure 1 does not correspond with actual title on drawing, page 4. And as stated before in above comments, the drawing on page 4 does not have a figure number in the title.
- 2) Page 3, 2nd sentence of paragraph 4.2: The word FIGURE is repeated twice.
- 3) Page 13, paragraph 4.4.8.1: Paragraph is not aligned with remaining subparagraphs. Looks like entire paragraph needs left margin moved in about three spaces.

PART III, QUALITY ASSURANCE PROJECT PLAN

- 1) Page 2, statement above figure 2-1: The word "detection" is misspelled.
2. The Naval Station point of contact on this matter is Duane Rollefson at DSN 360-7086, commercial (310) 547-7086.
