Dear Mr. Gutierrez:

Enclosed is a copy of the Final Remedial Investigation (RI) Report for Installation Restoration (IR) Sites 1 through 6A at Naval Station (NAVSTA), Long Beach, Long Beach, California.

Included in this document as Appendix T are the responses to the comments on the Draft RI from the California Environmental Protection Agency, Department of Toxic Substances Control, which included comments from the Regional Water Quality Control Board, Los Angeles Region, and comments from the U. S. Environmental Protection Agency. These comments were discussed at a Comment Resolution meeting held on January 31, 1996, and were incorporated into the Draft RI Report.

Additional work currently being performed at IR Sites 1 through 4 was agreed upon by the Navy and regulatory agencies in the Comment Resolution meeting. Documentation of this additional work will be included as Appendix U of this Final RI Report and will be issued separately when complete.

To facilitate the reuse of NAVSTA Long Beach we are requesting a letter accepting the Navy's Response to Comments and the Final RI Report by August 9, 1996.
