Dear Mr. Lee:

As you know, I have accepted a position as EPA's Remedial Project Manager for the Hunters Point Naval Shipyard site and will no longer be assigned to the Long Beach Naval Station project. I have thoroughly enjoyed working with you and the other Navy representatives on this project for the past two years. I wanted to extend my gratitude to you for working so diligently with me and the other members of the team to resolve difficult issues and accelerate the cleanup of the Naval Station.

I would like to introduce to you EPA's new Project Manager for the former Long Beach Naval Station, Mr. Martin Hausladen. You met Martin at the RAB and project meetings last month. Martin was EPA's Project Manager for Norton Air Force Base, a project I know is near and dear to your heart, and has extensive experience working on the cleanup of military bases. In addition, Martin will also be EPA's representative on the BCT for the Long Beach Naval Shipyard. Please direct all correspondence and reports regarding the Station and Shipyard to his attention at the following address: Mr Martin Hausladen, U.S. EPA, 75 Hawthorne St, H-9-2, San Francisco CA 94105. Martin's new phone number will be (415) 744-2388 as of December 1st.

I wish you continued success on this project. Please feel free to contact me at any time if you have questions about past issues.

Sincerely,

A handwritten signature in cursive script that reads "Sheryl Lauth".
