**RESPONSE TO COMMENTS ON THE REPORT - STOCKPILE CHARACTERIZATION, SITE 4,  
NAVAL STATION LONG BEACH, LONG BEACH CALIFORNIA (FILE No. 90-76)**

We have received and reviewed the Navy's response to our March 24, 1998 comments on the *Report - Stockpile Characterization, Site 4*. The response states that all soil exceeding the screening criteria for this site will be segregated from the soil stockpiles and transported off-site to an approved landfill, and that the Site 4 W excavation will be backfilled with the remaining clean soil. You are authorized to proceed with the workplan, with the inclusion of the above referenced amendments. Please provide us with the final disposition of the soil transported off-site, and include a copy of the appropriate manifests.

If you have any questions regarding the above, please contact Hugh Marley at (213) 266-7669.
