Ser 56MC.AL/185
January 27, 1997

From: Commander, Southwest Division Naval Facilities Engineering Command

Subj: TRANSMITTAL OF PRELIMINARY RESULTS OF ANALYSES, INSTALLATION RESTORATION SITE 7 (WEST BASIN), NAVAL STATION LONG BEACH, LONG BEACH CALIFORNIA

1. Provided under separate cover were the following additional analyses for Site 7:
 - Reference Station data using only Reference Stations 40018 and 40032; and,
 - Groupings of West Basin stations using toxicity data and benthic community indices.
2. These additional analyses were performed in support of the Remedial Investigation being conducted for Site 7, in response to the joint Agency comments of August 5, 1996, and as further elaborated on at the December 19, 1996, project status teleconference.
3. This information is being transmitted to you for discussion at the February 5, 1997 project status teleconference.
4. Please do not hesitate to contact Omer Kadaster at (310) 807-2178, if additional information is required.
