PUBLIC NOTICE

LONG BEACH NAVAL COMPLEX RESTORATION ADVISORY BOARD

WHO: EVERYONE WELCOME
WHEN: 16 APRIL 1996 AT 7:00 P.M.
WHERE: LONG BEACH NAVAL SHIPYARD
BUILDING 300, 1ST FLOOR (ENTER THROUGH GATE 5)

The Department of the Navy (Navy) is conducting environmental investigation activities at the Long Beach Naval Complex (LBNC) as part of the Installation Restoration Program (IRP). The Navy has partnered with environmental agencies and the community to carefully coordinate the environmental restoration of the LBNC under this program. The LBNC established a Restoration Advisory Board (RAB) in April of 1994 which meets on the third Tuesday of the month at the Long Beach Naval Shipyard, Building 300, at 7:00 P.M.. The meetings are typically held bi-monthly unless the RAB has business requiring additional meetings.

This meeting is OPEN TO THE PUBLIC and is intended to provide an open forum for the community to attend and participate in all aspects of the investigation and cleanup of the Long Beach Naval Complex.

The Agenda for the 16 April 1996 meeting includes: the election of new Community Co-Chair, revisions to the Rules of Operation, and the receipt of comments on the draft Remedial Investigation report for IRP Site 7.

If you have any questions, please contact:

Mr. Ernest S. McBride, Jr.
Long Beach Naval Shipyard Congressional & Public Affairs Officer

Administrative Issues

The RAB meeting minutes of 19 March 1996 were approved with the following corrections: Don May wanted the record to reflect that he did not agree with the statistics performed in support of the Draft Remedial Investigation Report for IR Site 7 and that the data presented in Tech Memo 6 was different than the draft RI data.

Alan Lee reviewed the 1 April 1996 News article from the Daily Breeze regarding the Long Beach Harbor.

The RAB discussed correspondence from RAB Member Don May regarding: (a) his request for copies of the entire IR Site RI (Volumes 1-7); and (b) his request for a 90-day extension to review the documents. The Navy provided copies of Volumes 1-7 to Don May on 2 April 1996. RAB member Dr. Robert Kanter commented that a 90-day extension would significantly impact the schedule for Reuse activities, and that he could not support such an extension. Don May explained that he had several questions regarding lab certification, and data validation performed as part of this RI effort. The Navy agreed to conduct an additional Technical Workshop on site 7 to attempt to clarify information. Don May agreed to withdraw his request for a 90-day extension to review the document pending the results of the workshop. Don May, David Sundstrom, Karl Tiedemann and Richard Landgraff all submitted written comments on the Site 7 RI seeking clarification of specific information presented in the report. The Technical Workshop was scheduled for 7 May 1996, from 6-9 p.m. at the Long Beach Naval Shipyard, Building 5.

Port of Long Beach Presentation - Reuse Activities

Dr. Robert Kanter, Assistant Director of Planning for the POLB, presented the status of POLB-related Reuse activities. Dr. Kanter explained the dredging project proposed for the Harbor, and the lease of a portion of the Mole from POLB to BOEING for their SeaLaunch Project. Dr. Kanter explained the details of each project, the various environmental elements of each project, and the special studies being conducted by the POLB to support these future Reuse activities.

Receive Comments on the Draft RI for IRP Site 7 (Long Beach Harbor, West Basin)

Written comments were collected from Richard Landgraff, Don May, David Sundstrom and Karl Tiedemann. Jennifer Rich, DTSC Community Participation Specialist, facilitated the effort. Joan Greenwood asked questions regarding the holding time for the samples collected. QA/QC protocol, lab certification and surrogate samples. Mike Radecki, Lead RPM at SWDIV, responded to the oral questions asked by the RAB. Written responses will be provided at the Technical Workshop scheduled for 7 May 1996 (discussed further above).

Election of 1996 Community Co-Chair/Revision to the Rules of Operation

The RAB membership elected to have Donna DiRocco serve as Community Co-Chair for another year. The Rules of Operation will be revised for the new 1996-1997 RAB year.

Open Meeting to RAB Members and Members of the Audience

The RAB would like to review the agency comment on the draft RI for IR Site 7.

The meeting was adjourned at 9:10 P.M.

The next LBNC RAB meeting is scheduled for Tuesday, 21 May 1996 at 7:00 P.M. at the Long Beach Naval Shipyard, Building 300, 1st floor, Long Beach, California.

These minutes were recorded by Kathy C. Stevens (of BNI, the CLEAN II Contractor), acting as the RAB Technical Support, and reviewed and approved by all members of the Long Beach Naval Complex Restoration Advisory Board.
