Company:		Contact Name & Title:	Bechtel Name & Title:		
Southwest Division - Naval Facilities Engineering Command (SWDN)		Kim Ostrowski - RPM (619) 532-2004, Ext. 15	Edward Morelan - CTOL (562) 807-2213		
Purpose of Contact: Kim Ostrowski contacted me to provide direction on the handling of agency comments received verbally or by fax on the Long Beach Naval Shipyard Groundwater Investigation Work Plan for IRP Sites 9, 12 and 13. The responses to comments were transmitted by facimile to the agencies on 05/16/97 for their review and concurrence, and by mail on 05/19/97 (Ref. Bechtel Chron: CTO-0123/0045).					
TO: ED MORELAN 562-807-2398 FROM: Alvaro Gutierrez 562-590-5565					
Results: On 06/16/97, I received verbal confirmation from Alvaro Gutierrez of the Cal-EPA / DTSC that his agency did not have comments on the Draft Groundwater Investigation Work Plan for IRP Sites 9, 12, and 13 (Kim had previously requested that regulatory agencies send all correspondence officially on their letterhead to fulfill Administrative Record requirements). Alvaro said that outstanding issues regarding the Work Plan have been resolved, as long as the comments from the LARWQB had been resolved; I informed him that the LARWQCB issues had been resolved. To facilitate timely completion of the review process and issuance of the Final Work Plan, Kim directed me to continue to incorporate verbal and faxed comments, and to follow up by documenting phone conversations or submitting the fax into the Administrative Record. The Final Work Plan will be issued, and the field activities will be initiated based on these documented conversations.					
 Alvaro Gutierrez, Cal-EPA / DTSC		6/16/97 Date			
Future Action to be Taken: Upon concurrence from all agencies on responses to comments, BNI to upgrade Groundwater Investigation Work Plan to Final status.
