DRAFT FINAL VERSION OF THE WORKPLAN ADDENDUM NO. 2 FOR THE TEN GROUP B AREAS OF CONCERN INVESTIGATION AT THE LONG BEACH NAVAL SHIPYARD, LONG BEACH, CALIFORNIA (FILE No. 90-75)

We have received and reviewed the *Draft Final Version Of The Workplan Addendum No. 2 For The Ten Group B Areas Of Concern Investigation At The Long Beach Naval Shipyard, Long Beach, California*, dated October 7, 1998. Our comments are as follows:

- Engine maintenance work appears to have been performed in the Diesel Test Cell Area of Building 129. Please include analysis for volatile organic compounds in this area.
- The approximation of 400 square feet stated, on page 7, for the Building 54 yard is not consistent with Figure 7, and should be revised.
- Please include analysis for semi volatile organic compounds for the paint-waste and paint-wash USTs at Building 216 and Building 202.

If you have any questions regarding the above, please contact Hugh Marley at (213) 266-7669.
