San Diego, California 92132-5181

Dear Mr. Rollefson:

FINAL SAMPLING REPORT FOR NINE GROUP B AREAS OF CONCERN (AOC), LONG BEACH NAVAL SHIPYARD, LONG BEACH, CALIFORNIA

The California Department of Toxic Substances Control (DTSC) completed its review of the *Final Sampling Report for Nine Group B Areas of Concern (Final SR), Long Beach Naval Shipyard, Long Beach, California*, dated November 1998. The *Final SR* was prepared by CDM Federal Programs Corporation.

These nine Group B AOC were identified during a Preliminary Assessment (PA) as sites that were likely to have experienced environmental impacts from past use, storage, or disposal of hazardous substances at the Long Beach Naval Shipyard. The *Final SR* addresses the remaining nine of the 25 Group B AOCs recommended for sampling based on the PA findings. The *Final SR* was performed to support the PA recommendations and to determine whether further action is warranted at each of the nine Group B AOC. The further action sites recommended in the *Final SR* for further investigation will be addressed as part of the Work Plan Addendum No. 2, to be submitted by the Navy in March 1999 to DTSC. DTSC is satisfied with the response to comments submitted by the Navy for the *Final FSR* and has no additional comments on the document. As a result, the Department hereby concurs with this *Final FSR*.

If you have any questions, please contact Mr. Alvaro Gutierrez of my staff at (714) 484 - 5417.

Sincerely,

Sharon Fair, Unit Chief
Base Closure/Reuse Unit
Office of Military Facilities
