

the Madera Islamic Center and several cardboard signs with the message "Wake up America, the enemy is here" were left outside the mosque, it stated.

A United Methodist Church also had paper notes taped to its windows in September with the message, "Homosexual pastors? Is this a Christ honoring church or are you awakening the spirit of Sodom and Gommorah?"

The signs at the clinic, mosque and church all were signed with the initials "ANB," and some at the mosque read, "Amerioan Nationalist Brotherhood." The Madera County Sheriff's Department recovered a fingerprint from one of the placards and linked it to Mower.

FBI Agent Robert Schofield said Mower admitted throwing a beer bottle with a cloth soaked in diesel fuel at the Planned Parenthood clinic and creating all the signs labeled "ANB."

Sacramento County Superior Court.

**NOTICE OF AVAILABILITY AND PUBLIC COMMENT PERIOD
MUNITIONS NON-TIME-CRITICAL REMOVAL ACTION
PRODUCTION MANUFACTURING AREA AND SOUTH SHORE AREA
FORMER MARE ISLAND NAVAL SHIPYARD, VALLEJO, CALIFORNIA**

The Department of the Navy, in coordination with state and federal environmental regulatory agencies, is announcing the public availability of the Engineering Evaluation Cost Analysis (EECA)/Interim Remedial Action Plan (IRAP) for the Munitions Non-Time-Critical Removal Action at the Production Manufacturing Area (PMA) and South Shore Area (SSA) located on the Former Mare Island Naval Shipyard (MINS) in Vallejo, California. Former MINS is located 25 miles northeast of San Francisco. The PMA and SSA are located at the southern end of former MINS. The sites were formerly used to manufacture and store munitions and munitions constituents. Previous munitions removals have been conducted at the sites since base closure in 1996. Possible remaining munitions and munitions constituents at the sites may pose a threat to human health and the environment. Surveys have been performed to detect metallic objects in the subsurface, which could represent potential munitions. The areas where the survey identified subsurface metal are called anomalies. The EECA/IRAP recommends excavation and removal of the anomalies in the areas most likely to contain potential munitions.

PUBLIC COMMENT PERIOD

The EECA/IRAP is available for public review, and the Navy will accept comments during the 30-day public comment period held from March 7, 2011 through April 4, 2011. Public comments submitted in writing must be postmarked or e-mailed no later than April 4, 2011. Please send all comments to the Navy Base Realignment and Closure, Environmental Coordinator, Ms. Janet Lear, 1455 Frazee Road, Suite 900, San Diego, California 92108-4310, (619) 532-0976, (619) 532-0780 (fax), or janet.lear@navy.mil.
